## **Clearing browser cache in Firefox**

1. Open Mozilla Firefox. If prompted "Make Firefox your default browser?" choose either "Make primary browser" or "not now."

2. Press Control + Shift + Delete at the same time to open the Clear Recent History setting.

Clear Recent History			
Time range to clear:	Last hour		~
History			
Browsing & download history		<u>C</u> ookies	
Active <u>l</u> ogins		✓ C <u>a</u> che	
Eorm & search history			
Data			
Site settings		Offline website data	
		ОК	Cancel

3. Set a time range -- we recommend *Everything* -- and uncheck *Browsing* & *download history*, *Active logins*, *Form* & *search history*, and *Cookies*, unless you'd like to clear any of those as well.

4. Click on OK.
